Subject: Regional Housing Needs Assessment

To the Southern California Association of Governments staff:

As a long time citizen of Yorba Linda I support our mayor and city council through resolution number 2020-5649 opposing the revised methodology process regarding our city's RHNA obligation from 207 housing units to 2,322. An increase of 1,122%! This is unacceptable. No city should be made to support that many homes.

Please reconsider this last minute substitute motion that was made introducing the increase (which was opposed by every Orange County representative!). Our city will do it's fair share but this is motion is ridiculous..

Sincerely,
Connie Bryant
